Detail-oriented and results-driven **Data Analyst** with **3.5 years** of experience, proficient in delivering innovative technical solutions. Skilled in designing interactive **dashboards**, optimizing **SQL queries**, and utilizing cloud solutions. Strong analytical skills enable effective problem-solving and data interpretation, ensuring high-quality project outcomes. Dedicated to leveraging technical knowledge to drive efficiency and enhanced system performance.

TECHNICAL SKILLS

- Power BI Desktop
- Power BI Service
- Power Query
- DAX
- SQL
- MySQL
- SSMS
- ETL
- Dataflows
- Gateways
- Excel
- Microsoft Azure
- Data Modelling
- Data Visualization
- Data Cleaning
- Data Storytelling

WORK EXPERIENCE

Data Analyst | Infosys Limited, Trivandrum **03/2022 – 02/2026**

- 3 Years + of Experience in the **domain of Data Analytics** will play a critical role in analyzing complex datasets to drive business decisions and strategies.
- Experience in developing compelling Power BI reports and dashboards using **Power BI and DAX**.
- Developing and maintaining interactive dashboards and reports to track **key performance indicators (KPIs).**
- Creating data models and performing data analysis to identify trends and insights.
- Collaborate with **cross-functional teams**, including marketing, sales, and operations, to understand data requirements and **provide analytical support.**
- Staying up to date with industry trends, best practices, and **emerging technologies in data analytics.**
- Providing actionable recommendations based on data analysis to **drive business improvements and efficiencies.**

PROJECTS

Power BI Developer | Project 1

- Extracted and integrated data from multiple sources including **SQL Server** and Excel, transforming it to create insightful reports and interactive dashboards using Power BI.
- Developed a dashboard for the entire company's products, **integrating data from business units**, product offering and applications.
- Utilized DAX queries and Calculated columns and visualizations including Stacked Column chart, Line chart, and trend lines.
- Developing and implementing **RLS** and **access control measures** to ensure the protection of sensitive data.
- Executed through data cleaning and transformation process to craft insightful reports, **boosting report effectiveness by 20% faster** rate in cleaning vulnerabilities and **reducing resolution time by 25%.**

Power BI Developer | Project 2

- Developed a dynamic Sales Dashboard in Power BI, integrating data from multiple sources SQL and Excel to provide real-time insights for business decisions.
- Designed interactive visualizations, including sales trends, revenue breakdowns, regional performance, and customer segmentation, enhancing decision-making.
- Implemented **DAX calculations** to analyze key sales metrics such as total revenue, average deal size, sales growth rate, and profit margins.
- Created drill-through reports and filters to enable sales teams to analyze performance by region, product category, and customer segment, improving strategic targeting.
- Optimized data processing by leveraging **Power Query** for ETL (Extract, Transform, Load) operations, **reducing data refresh time by 30%.**
- Improved sales reporting efficiency by automating reports and reducing manual **data processing time by 40%.**

EDUCATION

Bachelor of Technology in Mechanical Engineering, Kerala **2015 – 2019**

ACHIEVEMENTS

- Microsoft Certified: Power BI Data Analyst Associate (PL 300)
- Infosys Certified Microsoft Power BI Advanced Developer
- Infosys Certified - Power BI for Insights Professional
- Infosys Certified MySQL Associate
- Microsoft Certified: Azure Fundamentals (AZ-900)
- Infosys Certified Microsoft SSIS Developer
